those members of peace societies, continues the statement, who were regarded as high in peace councils, but who since the beginning of the war in Europe have identified themselves with the German cause, are not as accinted with those responsible for the holding of the present congress.

The discussions to be held at the Coast will not centre around the present conflict in Europe. Nor will the relations of the United States to any of the belligerents he considered. The delegates are to deal, in a broad way with the general question of settling international disputes in some other way than by resorting to arms.

A large number of delegates to the congress left this city yesterday, and others will start for San Francisco within the next few days. They are to represent all the important peace organizations of the country, including the Church Peace Union, the American Peace Society, the League to Enforce Peace, recently formed by ex-President Taft; the American Peace Centenary Committee, the American League to Limit Armaments and the Women's Peace party.

It is now planned to hold the opening sessions of the congress in the University of California's Greek them tree at Bericley. Addresses of welcome are to be made by Governous and League to Limit Armaments and the Women's Peace party.

"What kind of gasoline do you use?" "Don't know. Just gasoline. But I'm always careful to insist on high gravity.'

"High gravity, eh? What about ignition point?

"Ignition Point?"

"Sure. Boiling point-pretty much the same thing. That's the only real test for gasoline."

"But I thought low ignition point always went with high gravity. Doesn't it?"

"Yes, it does not. Think a moment. Ever had any trouble starting?"

"Well-of course-sometimes-" "Thought so. Yet you always buy high gravity gasoline, don't you?"

"Yes." "Well, what's the answer?"

"But what am I to do? Ask for low ignition point, low boiling point-

"Ask for SOCONY Motor Gasoline. You're safe then. The ignition point is right, the boiling point is right, and what's more, it's right every time. SOCONY Motor Gasoline is always the same, wherever you buy it."
